K RAHMAN

IT Executive, Customs Broker (ASYCUDA World)

PROFILE

Completed Higher National Diploma in networking. Willing to embark a career seeking challenges and experiences working in an effective information security field. Curious to explore a variety of network related courses to broaden my knowledge and improve my competency at an effective rate. So, hopefully looking forward to exploring a new role in network engineering field.

PROJECTS

IMPACT OF REMOTE WORKING IN STRESS AND DEPRESSION
CRP | 2022

This research project was conducted to identify and aware the people who were affected by remote working.

SMART GAS LEAKAGE AND DETECTION SYSTEM (COMPLETED)
IOT Project | 2022

This was developed due to the increase in gas leakages in Sri Lanka. The system detects LPG Gas leakage and notifies the owner by sending a message while it turns on the exhaust fan and switches off all the electrical appliances in the house to decrease the chance of a fire hazard.
[ARDUINO, ETHERNET SHIELD, C#, ADAFRUIT.IO, AND IFTT]

FRONTEND DESIGN OF A TOY COMPANY (COMPLETED)
WDD Project | 2021

The Web Designing project was done to explore the limits in using CSS and bootstrap. This project also made me familiar with color patterns for different users.
[BOOTSTRAP, CSS, HTML]
